PEOPLE IN TERROR OF FLAMING VESUVIUS

Crows Mad With Fear As Earthquakes Shake City.

"END OF THE WORLD HAS COME!"

Churches Are Filled, and the Surging Crowds in Streets Bemoan Their Fate, Wailing that They Have Been Deserted by Their Madonna.

Naples, April 10.—The hope that Mount Vesuvius was becoming calm was dissipated Sunday, when the volcano became more active than ever.

The panic has spread to Naples. Two strong earthquake shocks which shattered windows and cracked the walls of buildings, were experienced. The entire population rushed to the streets in terror, many persons crying: "The Madonna has forsaken us; the end of the world has come."

No trace remains of Boscotrecase, a commune on the southern declevity of the mountain where up to 48 hours ago 10,000 people lived; and Torre Annunziata on the shores of the gulf of Naples, one mile to the southward, is almost surrounded by the invading lava, and has been evacuated by its 30,000 inhabitants.

The people were brought to Naples by trains, street cars, military carts and steamboats. Similar means of transportation are being employed to bring away the people of Torre Del Greco.

A telegram received from the mayor of San Sebastiano, a village near the observatory, northwest declivity of Vesuvius, says the lava is approaching rapidly and that the people are terror-stricken. They have been for nights without sleep, he says, are destitute and beg that assistance be given them.

The work of succor is hampered, owing to delays to the railway service which is interrupted by red hot stones thrown to a height of three thousand feet, falling on the tracks. As yet it is impossible to count the craters that have opened and from which the streams of lava have flooded the beautiful, prosperous southeast shores of the Gulf of Naples. The atmosphere is heavily laden with electricity and now and then the flashes of lightning are blinding, while the detonations of the volcano resemble those of terrible explosions.

The churches of the city were open all Saturday night and were crowded with panic-stricken people. Members of the clergy are doing their utmost to calm their fears, but the effects of their arguments go almost for naught when renewed earthquake shocks are experienced.

With the danger and horror of the situation aside, Vesuvius presents one of the most splendid sights imaginable. The mountain of fire, whose speech is by detonation, and whose acts are destruction, seems like an enraged giant determined to make the pigmies of earth feel the might of his wrath.

Here and there on the mountainside stand the blasted trunks of pine trees, their bare branches outstretched as though in protest against the devastation the volcano has wrought.

The Duchess of Aosta, who always is to be found where misery exists, is not sparing herself in her efforts to alleviate distress. The people call her an agel of mercy.

The observatory has been destroyed and Signor Mattenoci, the director and the employes had narrow escapes.

Prisoners in jails on the mountainside went mad with terror and mutinied and were only partially quieted by being brought here. But their fears have been communicated to the prisoners here, who may rebel at any moment. The situation is critical.

Breathing is momentarily becoming more difficult, because of the poisonous fumes and smokes, while the hot ashes which are still falling tend to make life a burden.

Contrary to expectations, the sea has not yet shown signs of being affected by the phenomena, but fears are entertained that tidal waves may yet arise and many craft have put to sea.

Steamer Foreign Arrives.

New York, April 10.—The steamer [illegible] arrived Sunday from [illegible] with 12 passengers. Among them were S. H. Harris, of the Chicago Wrecking company, and Mrs. J. Gudder, wife of the justice of the court of Panama. One of the crew, Evan Ortsem, was removed to Swinburne island for observation.

CATHOLICS MAY ORGANIZE CLUB

National Association Wanted on Lines Similiar to Y. M. C. A.

New York, April 10.—A plan to establish in this country a national association for Catholic young men on the lines of the Y. M. C. A., has already taken definite shape, says the Tribune, and has the approval of Cardinal Gibbons, Archbishops Ireland, Farley and Ryan and the leading Catholic laymen of the country. John D. Crimmins, Mayor Dunne, of Chicago, W. Bourke Cochran, Justice McKenna, of the U. S. supreme court, the Countess Leary and other wealthy Catholics, have offered their aid to the movement. A million dollar trust fund has been suggested as a foundation for the movement. The plans will be thoroughly discussed in Baltimore next month at the close of the centennial celebration of the Baltimore Catholics. The movement has already been indorsed by the leading Catholic weeklies.

There will be, according to present plans, a national body with national headquarters having jurisdiction over all branches throughout the country. Present clubs and societies would be done away with or absorbed. The movement is discussed in the calendar of the Paulist fathers, issued Sunday.

Given Important Mission.

Tokio, April 10.—Yuan Sha Hai, the viceroy of Chili province, who was forced by the pressure of the anti-foreign faction to accept the resignation of Professor C. D. Lenney, foreign director of education in February last, has now given Leaney an important mission abroad. For the next four years he will act as superintendent of all the Chinese students in America, numbering just now about 400. Professor Lenney will soon start for the United States with sixty students, who will enter eastern colleges. Another American, named C. D. Jameson, an engineer, has been given charge of the construction work on all buildings erected by the foreigners and other important works.

Rawlings Attempts to Escape.

Valdosta, Ga., April 10.—An attempt to escape from the county jail by the pickpockets who were convicted some time ago and the famous Rawlings, father and sons, under death sentence for the murder of the Carter children, was discovered and frustrated Saturday. The prisoners had sawed the bolts in two which held in place a patch in the cell and in a few hours longer would have effected their escape from the jail. The prisoners claim that they secured the saws from the tool kit of a plumber who has been working in the jail, but it is believed that they were furnished them in some manner by parties on the outside. Two saws were found in the cells.

Celebrate the Birth of Buddha.

New York, April 10.—While Christian churches Sunday night with sermon and song were celebrating Palm Sunday and the entry of the Savior into Jerusalem before his crucifixion, priests of the Buddhist faith in Seventy-first street, in strange robes and wierd chanting, were celebrating the birth of their Savior, Gautama Buddha, 2,650 years ago. In the little Buddhist temple, there were no hymns, no prayers, nor other of the religious forms of the Christian faith, but the sermons preached by the Christian clergymen and by the Buddhist priests differed little.

To Make Negro Chaplain.

Washington, April 10.—Rev. Washington Gladden, pastor of a negro Baptist church at Colorado Springs, Colo., in all probability will be appointed by the president as chaplain of the Twenty-fifth infantry, one of the negro regiments of the army.

Officers to Get Hearing.

Macon, Ga., April 10.—Fairchance, John Davis and Charles Foster, who are accused of "looking" information regarding a raid on alleged gambling joints by Chief Connor and a number of officers, will have a hearing before the police commission.

OUT TWO DAYS IN LONG BOAT

Schooner Upset And Crew Are Thrown Overboard.

SAILORS SUFFERED INTENSELY.

A Succession of Heavy Squalls Were Encountered with a Heavy Sea Running, Which Struck the Vessel and Buried Her to the Rail.

Yarmouth, N. H., April 10.—Five survivors of the coasting schooner W. E. and W. L. Tuck, which they abandoned off Cape Sable, last Thursday, were landed here by the American steam trawler Spray, together with the body of Charles Wilstead, the steward of the vessel, who perished in the ship's long boat after many hours of exposure.

The other sailors also suffered intensely as they were all thinly clad because of their hasty escape from the vessel. The Spray picked them up.

The W. E. and W. L. Tuck sailed from Bridgewater, N. S., for New York with a load of lumber early last week, and had a good trip until Thursday, when she passed Cape Sable. After getting from under the lee of the Nova Scotia shore a succession of heavy northeast squalls were encountered with a heavy sea running.

Thursday afternoon a squall considerably harder than the others, struck the vessel and buried her to the rail.

Before the helmsman could put the wheel down, the vessel was too far over to right herself, and in a moment the Tuck was flat with her masts and sails in the water, but later, when the schooner righted herself, the sailors thrown overboard clambered upon the vessel again.

They found their vessel waterlogged and took to the long boat. In that tiny craft they remained for two days without food, water or anything to protect themselves from the wind.

Steward Wilstead, who was in the galley at the time the vessel went over, wore less clothing than any of the others. Every effort was made by his companions to keep him alive, but he died late Friday night after many hours of intense suffering.

Saturday afternoon the trawler Spray, which had left Boston early in the day, sighted the survivors.

The rescue was accomplished with considerable difficulty, during which Captain Milnell, of the Spray was badly cut, but pluckily remained at his post until all five men and the body of the steward were on board.

The accident to the Tuck took place 90 miles southwest from Cape Sable, and the derelict will evidently drift rapidly to the eastward.

Evansville Gripped by Flood.

Evansville, Ind., April 10.—The highest water here was 48 feet in 1884. The present rise probably will go to 42 feet. The rise continues, the gauge marking 40.7 feet Monday morning, and still rising. Some factories located on Pidgeon creek in the lower part of the city have ceased operation because of backwater caused by the river. Great wheat fields above and below the city are under water, but it is believed that if the water recedes quickly, much of the crops can be saved.

Structures Burn on Convict Farm.

Birmingham, Ala., April 10.—A special to the News from Jackson, Miss., says the buildings on the state convict farm in Rankin county were partially destroyed by fire early Monday causing a loss of about $75,000. Thirty horses, 24 mules, a number of cattle and a large collection of farming implements were also burned. So far none of the convicts are missing. The fire began in a big barn, and is thought to have been of incendiary origin.

Many Lives Lost in Wreck.

Billings, Mont., April 10.—The Burlington wreck was near Alliance, Neb. Only meager particulars are obtainable here. It is reported that the engine encountered a broken rail, and that the entire passenger train, No. 41, left the track. The engine took fire, and it is said that several lives were lost.

"KILL ME; I'M NOT COMING."

"Uncle Billie" Collins Defies the Government.

Columbus, Ga., April 10.—"Uncle Billy" Collins of the mountains of Meriwether, has just been arraigned before United States Commissioner Brown here once more on the charge of illicit distilling. He resents what he terms this unwarranted prying into his personal and private affairs, and confided to Judge Brown that he is getting awfully tired "of this foolishness."

"The next time you send for me," he said, "you can shoot me. I will just stand there, so, head up, and let 'em shoot me down, for I'm not coming any more."

"Uncle Billie," who is over seventy-five years of age, and one of the best known characters in Meriwether county, has strong convictions on both the right and propriety of an individual making "a little licker" whenever he pleases, and various able arguments to the contrary submitted to United States juries in cases where "Uncle Billie" was peculiarly interested have failed to shake his belief. The old man was acquitted at the last term of court of moonshining, and with an air of injured innocence left the court room. The grand jury sitting in a different part of the building, indicted him on the charge of illicit distilling in another case, and it was upon a bench warrant, the result of that indictment, that he was arrested by Deputy Marshal Roberts. He promptly made bond.

Negro Jailed for Safety.

Meridian, Miss., April 10.—Harry Mosely, a negro, was brought to Meridian for safe keeping. He is charged with having cut the throat of Bill Isebelle, a negro, near Scooba, Kemper county. According to the story told, a crowd of negroes, attending a circus performance at Scooba, were returning through the country in wagons. Mosely and Isebelle had a quarrel, the latter getting into Mosely's wagon and assaulting him. Mosely then drew his knife and cut Isebell's throat, almost severing the head from the body. Mosely is dazed, and talks but little. Both men were long-time friends previous to their difficulty.

Suggest Postponement of Congress.

Berlin, April 10.—The associated Press is officially informed that the German government has suggested a postponement of the second international peace conference at the Hague in order not to not interfere with the Red Cross conference at Berne. Germany has not suggested July as the month for the conference, but is trying to persuade Russia to postpone assembling the Hague conference so that the North, Central and South American states may be able to send representatives to the European conferences without interfering at the same time with the Pan-American conference at Rio Janeiro.

Settlement is Reached.

Washington, April 10.—The navy department has received the following cablegram from Commander Southerland, of the Yankee, dated Monte Christi, San Domingo, April 8th: "Satisfactory settlement has been reached at Samana Bay, San Domingo, by the efforts of Horacia Vasques. Trouble over; forces withdrawn. All quiet elsewhere. Paducah here. There is organized opposition at Samana, armed to resist attempt to install government delegate Cabrera. The president of San Domingo is to go personally, and it is to be hoped will make a compromise.

Cause Run on Bank.

Hillsboro, O., April 10.—Because the officials of the bank at Lynchburg in Highland county signed the petition for a local election to decide upon outing the saloons in the village, the faction opposed to ousting saloons in the town organized a run on the bank and nearly $15,000 was paid out Saturday. Monday most of the money was being deposited in the bank again, because it was found that the bank was able to meet all demands.

Three Negroes Effect Escape.

Helena, Ga., April 10.—The following prisoners have made their escape from the jail here by sawing the bars: Ike Rawlings, Sawyer Moss, and Clyde Wilson, colored, all being held under the charge of murder.

DOWIE WOULD ARREST THE LEADERS OF ZION

A Report Is Received to That Effect.

RUMOR CAUSED EXCITEMENT

If Dowie Carries Out Reported Program, Leaders Will Meet Him in the Same Way—Serious Charges Are Against Him.

Chicago, April 10.—A report was received in Zion Monday to the effect that John Alexander Dowie on his arrival in Zion City will cause the immediate arrest of General Overseer Voliva and the members of his council on a charge of conspiracy.

The rumor caused great excitement in Zion City, and the announcement was made that if Dowie took such action, his own arrest would follow immediately, and on a charge more serious than has as yet been made public.

Deacon Harrison, speaking for Overseer Voliva, said:

"If Dowie carries out such a program, we are prepared to meet him in the same way. He will at once be served with warrants upon charges more serious than have so far been made public."

Preparations have been made to counteract any move that may be made by Dowie in the direction of causing arrests. Bonds have been prepared by the officers of Zion church so that it will not be necessary for them to leave Zion City.

Deacon Wilhite left Zion City Monday with the $500 which he was asked by Dowie to forward.

He declined to say whether he would take it to St. Louis, or give it to Dowie on his arrival here.

Big School House Burns.

Cedartown, Ga., April 10.—The Samuel Benedict Memorial school, located 21½ miles south of Cedartown, was destroyed by fire about 8:30 o'clock Sunday night. As there was no water protection, it was impossible to check the progress of the flames and in a short while the building, which was only erected a short while ago, was in ruins. This is the second time the school has been destroyed by fire. The first fire occurred early in the morning about two years ago, the inmates escaping in their night clothing. The origin of the present fire is unknown. The building was partially insured.

Increase in Opposition Victory.

St. Petersburg, April 10.—Belated returns only increase the magnitude of the opposition's victory. Kursk returned a solid progressive delegation, headed by Prince Peter Dolgorouhoff. M. Sherkoff, one of the members elected to the lower house of parliament, is now in prison. Vitebsk elected two Poles, a Catholic priest, one progressive, two constitutional democrats and two peasants. At Vladimir, one of the old capitals of Russia, where the Orthodox faith is particularly strong, chose a monarchial delegate, but the electoral college elected five constitutional democrats.

Street Railway Case Decided.

Washington, April 10.—The Chicago street Railway case, involving the right of the city of Chicago to compel the street railway company of that city to remove or lower its tunnel under the Chicago river at Van Buren street, has been decided by the supreme court of the United States against the company on the ground that the change is an exercise of governmental authority in the interests of the common welfare. The chief justice and Justices Brewer, White and McKenna dissented.

Burns Cause Girl's Death.

Covington, Ga., April 10.—As the result of burns received Thursday Ida, the 5-year-old daughter of S. B. Burson, who resides 5 miles west of Covington, is dead. The little girl's clothing became ignited from a fire which she kindled while playing with matches and was frightfully burned. Every [illegible] resulted her.

FIRST DAY'S SESSION W. C. T. U. PROVED A MAGNIFICENT SUCCESS

Delegates from All Sections of the State Were Here.

THE PROGRAM WAS FINE

Big Auditorium of the University High School Was Filled With Delegates and Citizens, and the Program Was Enjoyable—Today's Program.

The twenty-third annual session of the Florida Woman's Christian Temperance Union opened in great splendor in the auditorium of the University High School last night, a large number of delegates from every section of the State being in attendance, and the big hall crowded to its utmost seating capacity by the best residents of Gainesville, including men, women and children. The decorations were appropriate and very tasty.

All during Monday and Tuesday delegates were arriving, and all were given good accommodation through the hospitality of the people of Gainesville, who are in hearty accord with the Union and its purposes.

In the afternoon at 3:30, at the first Baptist Church, was the real opening of the session, but this was in the nature of the meeting of the executive committee, and was confined solely to the members of this committee. It was the evening's exercises that were looked on by the public as being the opening session of the occasion.

The Evening Exercises.

The exercises in the evening began at 7 o'clock.

The program was a most interesting one. It was opened by a violin duet, The Palms, with piano accompaniment, and was admirably rendered by Misses Pansy Souter and Lila Ford on the violin, with Miss Ruth Doig as accompanist.

The next on the program was the hymn, "All Hail the Power of Jesus' Name," which was joined in by the audience, after which there was a prayer by Rev. S. B. Rogers of the Baptist church.

At 8 o'clock Hon. Christopher Matheson, in a very eloquent address in behalf of the city, told the delegates of the various Unions how glad the city of Gainesville—morally and otherwise he believed the best city in Florida, and as good as any in the United States—was to greet them. The speaker referred to the purity and virtue embodied in the purposes of the W. C. T. U., and declared it above all to be the most sacred and most charitble Godsend the people of the United States or the world ever had.

Prof. W. N. Sheats, principal of the University High School, followed Mr. Matheson with a neat and impressive address of welcome in behalf of the schools. He also eulogized in a most impressive manner the Union and its principles.

Prof. Sheats' remarks were followed by a welcome song, rendered by a quartette composed of Mrs. Dr. Robb, Mrs. M. Brooks, Mrs. Elizabeth Smith and Miss Mira McMillan.

Rev. T. J. Nixon of the First Methodist Church delivered an impressive address of welcome for the churches, which was followed by Mrs. J. E. Futch, who welcomed the guests in a most impressive manner in behalf of the Gainesville Union.

In behalf of the Unions of the State, Mrs. M. M. Forkum of DeLand responded, and for the young people Miss Idel Shelton made a very clever response.

W. W. Ashley and Mrs. Elizabeth Smith rendered a duet which was greatly enjoyed. They are among the finest vocalists in the State, and Gainesville is proud of them.

After the offering and announcements, the benediction dismissed the meeting.

Hospitality to Delegates.

There will be a reception held at the residence of Mrs. W. R. Thomas, East Church street, from 4 to 6 o'clock this afternoon. All regular members of the order, honorary members and delegates to the State convention, are cordially invited.

On Thursday afternoon the delegates to the State convention will be given a drive about the city. The livery men have kindly offered carriages for this purpose, but the committee asks citizens who own carriages to send them to the Baptist church at 4:30 o'clock in the afternoon.

Sliger, with headquarters in St. Louis, who is here on an official visit, and to see that the order in Florida is properly started out for work in the coming year. The Grand Lodge feels highly honored by his presence Mr. Sliger expressed himself as being well pleased with Gainesville in general and the hospitality of her people is particular.

Three sessions were held Tuesday. The lodge got down to business at once, convening at 10 o'clock in the morning. This session lasted until 1 o'clock, but after a recess of an hour business was resumed. Another session was held in the evening, beginning at 8 o'clock and lasting for a couple of hours. These sessions were devoted strictly to affairs affecting the business of the order.

A Splendid Report.

During the morning session Grand Reporter D'Alembert read his report, which was indeed encouraging. This report showed that during the past twenty-four and a half years, since the organization of the order in Florida, there have occurred 296 deaths. The amount drawn from the Supreme Lodge treasury for payment of death claims has been $578,250. Amount paid in from this Grand Lodge to the supreme treasurer, $664,034 25, making the amount paid in in excess of amount drawn, $84,533.25. The report further states that there has never been a contest of any claim paid out in the State, and that every claim has been paid promptly.

"The membership is growing," remarked Mr. D'Alembert, "It is in the healthiest condition since its existence, not only in Florida, but everywhere. The increase in March was more than 500."

Confidence is being restored, if ever lost, which fact is shown by the large number of applications and inquiries being made.

The Supreme Lodge at its last session, held in Atlanta, so amended the laws as to admit ladies to membership upon the same footing and same conditions as men, with the result that large numbers are joining the order in the North and West. This affords a reliable and cheap insurance for women.

The Grand Lodge members were driven about the city after the afternoon session, visiting the University buildings and other points of interest. They expressed themselves as being very much impressed.

The session will likely be concluded tonight.

PROGRESS MADE IN 50 YEARS

Druggist W. M. Johnson Says One of the Most Noted Examples is in Medicine.

"While electricity has supplanted the old-fashioned tallow candle for lighting purposes, almost turning night into day, while it has opened up our great country by a network of electric railways, while all kinds of machinery has been invented to do the work of hosts of people, we have just as noted an example in the field of medicine," said Mr. W. M. Johnson.

"Fifty years ago everyone knew of the latent medicinal properties contained in cod liver oil. Physicians everywhere prescribed it, but thousands could not take it on account of the oil and grease which enveloped the curative, strengthening properties it contained, and in many cases where they could take it, it would upset the stomach so it could do no good.

"Now all this is changed," continued Mr. Johnson. "Science has shown us a way to separate the curative medicinal elements which exist in the cod's liver from the oil or useless part and given us Vinol. It contains every one of these medicinal elements, actually taken from fresh cods' livers, but without a drop of oil or grease to nauseate and upset the stomach and retard its work. Vinol contains no sickening drugs; everything in it is printed on every bottle.

"We have never sold in our store a medicine equal to Vinol to give strength and renewed vitality to the aged, build up the run-down, tired and debilitated, make the weak strong, cure chronic coughs, colds and build up the convalescent.

"It is because we know so well the medicinal power of this new cod liver oil preparation that we freely offer to return the money in every case where it fails to give satisfaction." W. M. Johnson, Druggist.

A Dandy For Burns.

Dr. Bergin, Pana, Ill., writes: "I have used Ballard's Snow Liniment; always recommended it to my friends, as I am confident there is no better made. 'It is a dandy for burns.' Those who live on farms are especially liable to many accidental cuts, burns, bruises, which heal rapidly when Ballard's Snow Liniment is applied. It should always be kept in the house for cases of emergency." 25c, 50c and $1. Sold by W. M. Johnson.

A Pleasant Occasion.

S. J. Thomas, of The S. J. Thomas Company, as a token of appreciation for the services of his employes, entertains them at a dinner once each year. This dinner was given at the home of Mr. and Mrs. Thomas Monday evening, and the following gentlemen, employes, were present: W. J. Denby, R. E. Hoffman, Howard Sheats, T. Julian McRae, R. E. Hill, S. C. Warner and W. H. Woodward.

Dr. T. F. Thomas of the firm, and J. W. Alsop and George Perry, were prevented from being present on account of illness.

The menu comprised everything good to eat that the market afforded. The dinner concluded with a smoker, and altogether the occasion was one highly enjoyed and appreciated.

Board of Public Works—H. F. Dutton, W. N. Wilson, W. W. Hampton, H. E. Taylor, fifth member a tie vote between S. J. Thomas and P. M. Colson.

Amendment to the city charter wins.

Interest in the election for officers for the city of Gainesville yesterday centered in the race between W. M. Bradford and W. L. Hill, candidates for assessor, and C. Pinkoson and R. J. Riles, candidates for city marshal.

While there was more interest in this contest from a personal standpoint than there was in the race for councilmen, the latter was certainly a factor in bringing out votes. In this race a high compliment was paid to G. K. Broome, who received the highest vote, though a strong fight had been made against him.

The result of the election, as announced by the inspectors and clerks, is as follows:

Mayor—W. R. Thomas, 285.

MADE A FINE SHOW.

First National Bank Enjoys Most Remarkable Increase.

The statement of the First National Bank of Gainesville, which appears elsewhere in this paper, goes to show not only the solidity of the city and section, but the popularity of that institution and the confidence the public has in its officers as well.

The total resources of the First National shows the enormous sum of $666,851.52, which is an increase of about $106,000 over the last report, and the best showing the bank has ever made in its history. It is certainly not only gratifying to the management of the institution, but a credit to a city the size of Gainesville, as there is hardly a bank in the country which can make an equal showing in proportion to the population and the territory.

The First National expects to be in its elegant new home in a few days, when the officers will be better prepared than ever to serve the public.

NEWS OF CITY AND COUNTY CONDENSED

Mrs. Geo. P. Morris and daughter, little Miss Johanna, are spending a day or two with relatives and friends at Waldo.

Mrs. Fenton M. Prewitt and children, Louise and Fenton, Jr., left yesterday for a visit to relatives and friends at Waldo.

Willis Calloway, traveling freight agent of the Louisville and Nashville railroad with headquarters in Jacksonville, was in the city in the interests of his road yesterday. Mr. Calloway is a prominent member of the Elks, which naturally means that he is a good fellow. He has many friends throughout the State, and is doing a fine work for his road.

Frank Richardson, superintendent of construction on the University buildings, is again at his post, having returned from a week's sojourn at his home in Jacksonville. Frank, as has already been announced through The Sun, is the proud father of a fine boy, which his friends good-naturedly declare has given him slight touch of that disease known as the big-head. However, he is as big-hearted as ever, and naturally feels proud of the youngster, whom he says is the finest on earth. Frank is kept busy receiving congratulations.

Attention is called to the advertisement of the Gainesville Bottling Works, which appears elsewhere in this paper. This concern manufactures everything in the cold drink line, making a specialty of several new drinks, among which are the famous Digestol, a drink containing pepsin, and something very fine, peach mellow, etc. Only the purest of all chemicals or ingredients are employed in the manufacture of these goods, which have gained an excellent reputation and proved good sellers wherever they have been introduced. Messrs. Brooks & Davis are the proprietors of the Gainesville Bottling Works.

Among the prominent visitors to this city is G. D. Ackerly of Jacksonville, who is attending the session of the Grand Lodge, Knights of Honor, of which he is a member. Mr. Ackerly has been in Florida for many years, and is one of the most widely known men in the State, especially in transportation and secret society circles, being well connected in both. For many years he was general passenger agent of the Jacksonville, Tampa and Key West railroad, and was also connected with the old Orange Belt in the same capacity, in the pioneer days of that road. Mr. Ackerly is prominent in every circle in which he moves, and is always welcomed by those who know him.

If you mind your own business you no doubt would have more business to attend to.

It would cause us much less worry if we didn't know so many things that are not true.

The Sun has the list to prove that it is the best advertising medium. Our Twice-a-Week reaches all the farmers.

If all the newspaper men are elected to the Legislature it looks as though we ought to get a committee on printing that would see that better State work was done.

The people of Gainesville can congratulate themselves that they are blessed with pure ice. We have two first-class factories and both are turning out an article that is as clear as a diamond.

Judging from the improvements going on about the city, we are now entering upon the second era of the cement age. The ancients were experts, but we may show them a few points later.

Parents should visit schools whenever they can, to see how the education of their children is conducted, so they may better appreciate the efforts of the teacher. A teacher needs a little encouragement, the same as other mortals.

Railroad managers probably argue that while the public is so well pleased with the rates charged that it gives the roads more business than they can do, it is folly to expect them to lower the rates. Such logic is good—there are "millions in it"—for the roads.

The beautiful moonlight nights we are having are the equal of any country on the face of the earth. There is no moisture in the air, nor insects to bother, and the air is heavy with sweet perfumes, making the entire Southland resound with a spirit of bloom and freshness that knocks the socks off from even "fair Italy."

"This idea that the wearing of wings, breasts and other feather ornaments on women's millinery necessitates the wholesale slaughter of birds is all bosh," said a New York manufacturer. "Our feathers all come from poultry dressed for table use. We take bales of feathers, sort them, dye them, brush them, curl them and work them up into whatever is wanted, and not a bird's life is sacrificed."

There is a prodigious increase in the consumption of canned sweet corn in this country. Nearly 8,000,000 more cases (two dozen cans each) were put up in 1905 than in 1903. Last year's increase over the previous one was about 2,000,000 cases. This is not surprising, for there is no canned product that preserves its natural flavor and wholesomeness to a greater degree than corn; and it is gratifying because it is an exceedingly wholesome and palatable article of diet; and, best of all, it cannot become a trust-controlled product, for there are many co-operative corn canning establishments in the country, and their number can be readily increased to any extent desired.

WELCOME, W. C. T. U.

The meeting of the State Woman's Christian Temperance Union in this city is a matter of more than ordinary importance, and The Sun extends these good women a cordial welcome.

Only those who are connected with the work of this society of Christian workers have an idea of the good done, or the devoted women who comprise its membership. In Florida we have many of the foremost wives and mothers in the State as members, and the man or woman who speaks slightly of the W. C. T. U. does not know the good the Union is trying to do, or they would blush for shame.

To help those in distress, to care for the sick and suffering in every walk of life, to keep the boys from the places of sin and evil, are among the objects of this Union. They visit the old and feeble and bring them words of cheer. There is no one too low down in the scale of humanity for these good women to not make an effort to save, and many owe their salvation to the work of the W. C. T. U.

Men who have a faint spare of manhood about them have been lifted from the gutter and placed along with their more fortunate brothers through this Union. In many cities they are busy looking after and lifting up the poor, and their work has been endorsed by all good citizens.

There should be a warm place in the hearts of our people for these good women, and The Sun joins with all good citizens in giving them a hearty welcome to Gainesville.

HELP THE ERRING.

The Democrat is criticised because once in a while it has some good words for a boy or girl that aforetime was pretty tough. Bless God we're doing it a-purpose just as Jesus did. Didn't He make more fuss over finding the lost sheep than over the ninety and nine that didn't get lost? Didn't He have some mighty sweet words to say to the pretty-tough old gal he found at the well? Didn't He take the repentent thief with Him from Calvary to Paradise? Didn't He brag powerfully on Peter after he lied and swore awfully to Herod's hired girl? The Democrat doesn't care the snap of your finger how foolish and wicked the boy or girl may have been; when that youngster gets on the right track he or she is going to get the best praise and encouragement and loving good wishes the old Fulton Democrat has in stock. God help us to help the strenuous, wayward kids.—Fulton Democrat.

TRADE AT HOME.

The Crystal River News is a worker for its own town, and through its persistent efforts that town has come to the front quite rapidly. In urging the people to keep their money at home, it sends forth the following, which shows what will happen if you don't watch out and keep the dollars on their native heath:

"There was a man in this place and he was wondrous wise, he marked a silver dollar and gave it all to Lize; she went to see the butcher and blew the dollar in—it wasn't long before the coin came back again to him. He took it to the merchant and bought a dress for Jane—before the week had finished up back came the plank again; he spent the coin in this town full fifty times or more, but always got it back again and spent it o'er and o'er; but when he sent the dollar up to the Ocala store, 'twas gone for good—forever and he never saw it more."

A bill is now before the Iowa Legislature to sell eggs by weight, instead of by the dozen. In many Eastern cities this method has been in practice for years.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

EDISON ON EIGHT-HOUR DAY.

In the light of the present strike of union printers for an eight-hour schedule, it is interesting to read the statement of Edison, the famous inventor, that Americans eat too much, sleep too long and do not work hard enough for their own good. Mr. Edison began life as a poor telegraph operator. He never asked a union how many hours he might work.

There is not a successful business man, and certainly not a successful farmer, anywhere, who can thrive by working only eight hours a day. The employers of these very men who are striking, work ten and twelve hours a day to devise plans whereby to keep the business off the rocks and to increase the volume, thereby increasing the jobs for the employes. It takes more than eight hours, except for a genius, to accomplish success in this world of competition, and even when we get close to genius itself we find that genius is defined as an infinite capacity for hard work.

There is work which is drudgery, but usually is is the mere drudge who is doing it. With a man of right spirit, in good health, it is almost impossible to overwork.

Millions of people overworry—and it is not always the wage earner who is the victim of the overworry ailment—but few, even amongst strenuous Americans, overwork. Edison is right.—Northwestern Agriculturist.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy New Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root; and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

WORMS

"I had for years suffered from what medical men called Dyspepsia and Catarrh of the stomach. In August I purchased a box of Cascarets and was persuaded to find that I had "one"—yes—a wriggling, squirming pesse left me. Judge our daughter's surprise when I showed him thirty feet, and in another day the remainder about the same length, all of a large worm that had been causing my wife and my self more misery than all the rest of our family ever suffer. I trust this sentimental will appeal to other sufferers.

A WOMAN'S ORDEAL

DREADS DOCTOR'S QUESTIONS

Thousands Write to Mrs. Pinkham, Lynn, Mass., and Receive Valuable Advice Absolutely Confidential and Free

There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions in regard to her private ills, even when those questions are asked by her family physician, and many

continue to suffer rather than submit to examinations which so many physicians propose in order to intelligently treat the disease; and this is the reason why so many physicians fail to cure female disease.

This is also the reason why thousands upon thousands of women are corresponding with Mrs Pinkham, daughter-in-law of Lydia E. Pinkham, at Lynn, Mass. To her they can confide every detail of their illness, and from her great knowledge, obtained from years of experience in treating female ills, Mrs. Pinkham can advise sick women more wisely than the local physician.

Read how Mrs. Pinkham helped Mrs. T. C. Willadsen of Manning, Ia. She writes: Dear Mrs. Pinkham:

"I can truly say that you have saved my life, and I cannot express my gratitude in words. Before I wrote to you telling you how I felt, I had doctored for over two years steady, and spent lots of money in medicines besides, but it all failed to do me any good. I had female trouble and would daily have fainting spells, backache, bearing-down pains, and my monthly periods were very irregular and finally ceased. I wrote to you for your advice and received a letter full of instructions just what to do, and also commenced to take Lydia E. Pinkham's Vegetable Compound, and I have been restored to perfect health. Had it not been for you I would have been in my grave to-day."

Mountains of proof establish the fact that no medicine in the world equals Lydia E. Pinkham's Vegetable Compound for restoring women's health.

W. T. Johnson Disbarred.

Columbia, Ala., April 10.—Mr. W. T. Johnson, against whom civil and criminal proceedings have been pending in the circuit court of this county for sending a threatening and abusing letter through the mail, was convicted in the criminal court, and was fined $25 by the jury and sentenced to five months at hard labor by the court. In the disbarment proceedings the jury found for the state and judgment was rendered disbarring Johnson from the practice of law. Notice was given of appeal to the supreme court.

Children Perish in Flames.

Union, S. C., April 10.—A horrible holocust occurred in a remote section of this county when a whole family of little children, the oldest being 8 years, burned to death. The parents went to work in a distant field, locking the children indoors. Workmen nearby, noticing smoke ran to the building, arriving just in time to hear the little folks' screams of terror and agony as the blazing roof fell in, killing them all.

Stomach and Liver Trouble Cured.

Orino Laxative Fruit Syrup cures stomach and liver trouble, as it aids digestion and stimulates the liver and bowels without irritating these organs like pills and ordinary cathartics. It cures indigestion and sick headache and chronic constipation. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. J. W. McCollum & Co.

$17,000 Gold Bar Stolen.

New York, April 10.—A bar of gold bullion, valued at about $17,000, was stolen in shipment between Georgetown British Guinea, and New York. The discovery of the theft was made when the box in which the bar was shipped was opened and found to contain a piece of steel. The numerous seals on the box were undisturbed.

Cures Coughs and Colds.

Mrs. C. Peterson, 625 Lake St., Topeka, Kans., says: "Of all cough remedies Ballard's Horehound Syrup is my favorite. It has done, and will do all that is claimed for it—to speedily cure all coughs and colds—and it is so sweet and pleasant to the taste." Sold by W. M. Johnson.

Cured Hemorrhages of the Lungs.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bullet. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stops the cough and heals the lungs, and prevents serious results from a cold. Refuse substitutes. J. W. McCollum & Co.

THE DAILY SUN, published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States, postage free, for $5 a year; $2.50 six months; $1.25 three months; or 50 cents for five weeks—strictly in advance.

Reading notices in local column 10 cents a line for first insertion, and 5 cents for each additional insertion.

Rates for display advertising made known on application.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, State and general, and will be mailed, postage free, to any part of the United States or Canada, for $1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

If you mind your own business you no doubt would have more business to attend to.

It would cause us much less worry if we didn't know so many things that are not true.

The Sun has the list to prove that it is the best advertising medium. Our Twice-a-Week reaches all the farmers.

If all the newspaper men are elected to the Legislature it looks as though we ought to get a committee on printing that would see that better State work was done.

The people of Gainesville can congratulate themselves that they are blessed with pure ice. We have two first-class factories and both are turning out an article that is as clear as a diamond.

Judging from the improvements going on about the city, we are now entering upon the second era of the cement age. The ancients were experts, but we may show them a few points later.

Parents should visit schools whenever they can, to see how the education of their children is conducted, so they may better appreciate the efforts of the teacher. A teacher needs a little encouragement, the same as other mortals.

Railroad managers probably argue that while the public is so well pleased with the rates charged that it gives the roads more business than they can do, it is folly to expect them to lower the rates. Such logic is good—there are "millions in it"—for the roads.

The beautiful moonlight nights we are having are the equal of any country on the face of the earth. There is no moisture in the air, nor insects to bother, and the air is heavy with sweet perfumes, making the entire Southland resound with a spirit of bloom and freshness that knocks the socks off from even "fair Etaly."

"This idea that the wearing of wings, breasts and other feather ornaments on women's millinery necessitates the wholesale slaughter of birds is all bosh," said a New York manufacturer. "Our feathers all come from poultry dressed for table use. We take bales of feathers, sort them, dye them, brush them, curl them and work them up into whatever is wanted, and not a bird's life is sacrificed."

There is a prodigious increase in the consumption of canned sweet corn in this country. Nearly 5,000,000 more cases (two dozen cans each) were put up in 1905 than in 1903. Last year's increase over the previous one was about 2,000,000 cases. This is not surprising, for there is no canned product that preserves its natural flavor and succulence to a greater degree than corn; and it is gratifying because it is an exceedingly wholesome and palatable article of diet; and, best of all, it cannot become a trust-controlled product, for there are many co-operative corn canning establishments in the country, and their number can be easily increased to any extent desired.

WELCOME, W. C. T. U.

The meeting of the State Woman's Christian Temperance Union in this city is a matter of more than ordinary importance, and The Sun extends these good women a cordial welcome.

Only those who are connected with the work of this society of Christian workers have an idea of the good done, or the devoted women who comprise its membership. In Florida we have many of the foremost wives and mothers in the State as members, and the man or woman who speaks slightly of the W. C. T. U. does not know the good the Union is trying to do, or they would blush for shame.

To help those in distress, to care for the sick and suffering in every walk of life, to keep the boys from the places of sin and evil, are among the objects of this Union. They visit the old and feeble and bring them words of cheer. There is no one too low down in the scale of humanity for these good women to not make an effort to save, and many owe their salvation to the work of the W. C. T. U.

Men who have a faint spare of manhood about them have been lifted from the gutter and placed along with their more fortunate brothers through this Union. In many cities they are busy looking after and lifting up the poor, and their work has been endorsed by all good citizens.

There should be a warm place in the hearts of our people for these good women, and The Sun joins with all good citizens in giving them a hearty welcome to Gainesville.

HELP THE ERRING.

The Democrat is criticised because once in a while it has some good words for a boy or girl that aforetime was pretty tough. Bless God we're doing it a-purpose just as Jesus did. Didn't He make more fuss over finding the lost sheep than over the ninety and nine that didn't get lost? Didn't He have some mighty sweet words to say to the pretty-tough old gal he found at the well? Didn't He take the repentent thief with Him from Calvary to Paradise? Didn't He brag powerfully on Peter after he lied and swore awfully to Herod's hired girl? The Democrat doesn't care the snap of your finger how foolish and wicked the boy or girl may have been; when that youngster gets on the right track he or she is going to get the best praise and encouragement and loving good wishes the old Fulton Democrat has in stock. God help us to help the strenuous, wayward kids.—Fulton Democrat.

TRADE AT HOME.

The Crystal River News is a worker for its own town, and through its persistent efforts that town has come to the front quite rapidly. In urging the people to keep their money at home, it sends forth the following, which shows what will happen if you don't watch out and keep the dollars on their native heath:

"There was a man in this place and he was wondrous wise, he marked a silver dollar and gave it all to Lize; she went to see the butcher and blew the dollar in—it wasn't long before the coin came back again to him. He took it to the merchant and bought a dress for Jane—before the week had finished up back came the plunk again; he spent the coin in this town full fifty times or more, but always got it back again and spent it o'er and o'er; but when he sent the dollar up to the Ocala store, 'twas gone for good—forever and he never saw it more."

A bill is now before the Iowa Legislature to sell eggs by weight, instead of by the dozen. In many Eastern cities this method has been in practice for years.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

EDISON ON EIGHT-HOUR DAY.

In the light of the present strike of union printers for an eight-hour schedule, it is interesting to read the statement of Edison, the famous inventor, that Americans eat too much, sleep too long and do not work hard enough for their own good. Mr. Edison began life as a poor telegraph operator. He never asked a union how many hours he might work.

There is not a successful business man, and certainly not a successful farmer, anywhere, who can thrive by working only eight hours a day. The employers of these very men who are striking, work ten and twelve hours a day to devise plans whereby to keep the business off the rocks and to increase the volume, thereby increasing the jobs for the employes. It takes more than eight hours, except for a genius, to accomplish success in this world of competition, and even when we get close to genius itself we find that genius is defined as an infinite capacity for hard work.

There is work which is drudgery, but usually is is the mere drudge who is doing it. With a man of right spirit, in good health, it is almost impossible to overwork.

Millions of people overworry—and it is not always the wage earner who is the victim of the overworry ailment—but few, even amongst strenuous Americans, overwork. Edison is right.—Northwestern Agriculturist.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root; and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

WORMS

"I had for years suffered from what medical men called Dyspepsia and Catarrh of the Stomach. In August I purchased a box of Cascarets and was surprised to find that I "had" 'em"—yes—a wiggling, squirming mass left me. Judge our doctor's surprise when I showed him thirty feet, and in another day the remainder (about the same length) of a tapeworm that had been sapping my vitality for years. I have enjoyed the best of health ever since. I trust this testimonial will appeal to other sufferers."

A WOMAN'S ORDEAL

DREADS DOCTOR'S QUESTIONS

Thousands Write to Mrs. Pinkham, Lynn, Mass., and Receive Valuable Advice Absolutely Confidential and Free

There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions in regard to her private ills, even when those questions are asked by her family physician, and many

continue to suffer rather than submit to examinations which so many physicians propose in order to intelligently treat the disease; and this is the reason why so many physicians fail to cure female disease.

This is also the reason why thousands upon thousands of women are corresponding with Mrs Pinkham, daughter-in-law of Lydia E. Pinkham, at Lynn, Mass. To her they can confide every detail of their illness, and from her great knowledge, obtained from years of experience in treating female ills, Mrs. Pinkham can advise sick women more wisely than the local physician.

Read how Mrs. Pinkham helped Mrs. T. C. Willadsen of Manning, Ia. She writes: Dear Mrs. Pinkham:

"I can truly say that you have saved my life, and I cannot express my gratitude in words. Before I wrote to you telling you how I felt, I had doctored for over two years steady, and spent lots of money in medicines besides, but it all failed to do me any good. I had female trouble and would daily have fainting spells, backache, bearing-down pains, and my monthly periods were very irregular and finally ceased. I wrote to you for your advice and received a letter full of instructions just what to do, and also commenced to take Lydia E. Pinkham's Vegetable Compound, and I have been restored to perfect health. Had it not been for you I would have been in my grave to-day."

Mountains of proof establish the fact that no medicine in the world equals Lydia E. Pinkham's Vegetable Compound for restoring women's health.

W. T. Johnson Disbarred.

Columbia, Ala., April 10.—Mr. W. T. Johnson, against whom civil and criminal proceedings have been pending in the circuit court of this county for sending a threatening and abusing letter through the mail, was convicted in the criminal court, and was fined $25 by the jury and sentenced to five months at hard labor by the court. In the disbarment proceedings the jury found for the state and judgment was rendered disbarring Johnson from the practice of law. Notice was given of appeal to the supreme court.

Children Perish in Flames.

Union, S. C., April 10.—A horrible holocust occurred in a remote section of this county when a whole family of little children, the oldest being 8 years, burned to death. The parents went to work in a distant field, locking the children indoors. Workmen nearby, noticing smoke ran to the building, arriving just in time to hear the little folks' screams of terror and agony as the blazing roof fell in, killing them all.

Stomach and Liver Trouble Cured.

Orino Laxative Fruit Syrup cures stomach and liver trouble, as it aids digestion and stimulates the liver and bowels without irritating these organs like pills and ordinary cathartics. It cures indigestion and sick headache and chronic constipation. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. J. W. McCollum & Co.

$17,000 Gold Bar Stolen.

New York, April 10.—A bar of gold bullion, valued at about $17,000, was stolen in shipment between Georgetown British Guinea, and New York. The discovery of the theft was made when the box in which the bar was shipped was opened and found to contain a piece of steel. The numerous seals on the box were undisturbed.

Cures Coughs and Colds.

Mrs. C. Peterson, 626 Lake St., Topeka, Kans., says: "Of all cough remedies Ballard's Horehound Syrup is my favorite. It has done, and will do all that is claimed for it—to speedily cure all coughs and colds—and it is so sweet and pleasant to the taste." Sold by W. M. Johnson.

Cured Hemorrhages of the Lungs.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bullet. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stops the cough and heals the lungs, and prevents serious results from a cold. Refuse substitutes. J. W. McCollum & Co.

FIRST PIPES FOR SEWERAGE SYSTEM

Two Carloads Arrived in City and Were Unloaded Tuesday.

WORK TO BEGIN AT ONCE

Contractor Beeman Promises a First-Class and Modern System, Which Will be Completed Within Nine Months—Work to Begin This Week.

It begins to look like a reality—the sewerage system for Gainesville, and before another year will have elapsed this city will be equipped with one of the best and most modern systems in the State.

F. H. Beeman of Louisville, Ky., who has the contract for this work, promises to complete the same within about nine months. The first consignment, consisting of two carloads of pipe, arrived Tuesday, and were at once unloaded. Mr. Beeman already has a good force of workmen here, and proposes to begin excavation and other preparations before the end of the present week.

Engineer Lyons of Palatka, who was the engineer of the work in that city, for which Mr. Beeman has the contract, arrived in the city Tuesday. Mr. Hunt, who will be foreman of the work, has been here for several days, and everything will be in readiness to go at the work and push it through as rapidly as possible.

The contract price for this system will be about $45,000. This will include twelve miles of main piping, which will be from fifteen inches in diameter down to six inches.

As the demand requires, Contractor Beeman proposes to increase his force.

ICE WATER FREE.

Furnished by the W. C. T. U. at the Drinking Fountain.

When the warm days of summer are here and the water from the city works is warm, it will be refreshing to know that all who desire can get a cool drink at the city drinking fountain, erected by the W. C. T. U. on the court house square, on East Main street, South.

An arrangement has been made whereby ice will be supplied to keep the water cool until the hot summer days are past, and there will be cool water until October 1st.

It is a very good idea and there are few cities in this country where the public can enjoy the pleasure of having free ice water at a public fountain.

Trial Entering Last Week.

Savannah, Ga., April 10—The Green and Gaynor trial Monday entered upon its fourteenth and probably last week. Arguments will continue, perhaps, through Wednesday. Judge Speer will charge the jury toward the end of the week, and it is expected that the jury will conclude its deliberations and report its finding before the end of the week.

A CHINESE HOTEL.

Probably the Only Hostelry in Florida Confined to Celestials.

Probably the only hotel in Florida confined exclusively to Celestials is the hostelry recently established at Paradise by C. W. Chase, the naval stores operator, who recently imported nearly a hundred Chinamen to that place from Oregon for the purpose of giving them employment in the naval stores business.

Mr. Chase, with characteristic energy, and realizing that there must be some resort to care for these men, converted an immense building which had been used as a phosphate plant into a hotel, placed a competent manager and good cooks in charge, with the result that the Chinamen are living happily there today among themselves, eating what they please and when they please.

The management of the house and the cooks are kept busy looking after the wants of their countrymen, but everybody is apparently satisfied.

JURY AMBITION COST HIM SKIN

Negro Would Serve on Jury Whether or No.

Columbus, Ga., April 10.—A negro, whose name has not been learned, was severely whipped in Monroe county because he insisted on serving on the grand jury to which he had been drawn. Though drawn on the jury he had not been summoned.

However, on having seen his name in the local paper as one of the jury, he swam the river to get to Monroeville. He was not allowed to serve, and told that the judge would excuse him from serving if he asked it. This he refused to do. The next night he was taken out by some one not known and whipped and told to move on.

The next day he showed up and exhibited his bruises to Judge Lackland, telling him how they were received. The judge at once called the grand jury into the court room, related the case and instructed them that they should proceed to discover and indict the persons who had whitecapped the negro.

"I have performed my duty, gentlemen of the jury, perform yours," said the judge, as he dismissed them. The charge created a profound impression in the county, and the judge is being congratulated on the stand he has taken.

However, the feeling is high, and in some parts of the county the negroes have been ordered to move out, and not allow night to catch them there.

Teacher Saves Negroe's Life.

Meridian, Miss., April 10.—The coolness of Professor J. W. Beeson, of the Meridian Female college, prevented the lynching of the negro who shot Branscomb Farmer, a street car conductor. A mob of not less than one hundred men and boys located the negro at the college, where he has been employed, and prepared to make an attack. Professor Beeson secreted the negro and argued the mob into dispersing by promising to deliver the negro to the police Monday. The shooting occurred over the refusal of the negro to pay fare for a twelve-year-old boy who accompanied him on the car. The conductor it is believed will recover. Blood hounds were used in the chase by the mob.

Overflow is Not Feared.

Memphis, Tenn., April 10.—Fears of a general overflow in this vicinity are rapidly vanishing. The river Sunday night registered 34.5 feet, and is rising very slowly. The crest of the high wave has passed Cairo, and river men estimate that it will reach Memphis by Wednesday. The levees protecting the St. Francis basin have withstood the strain of the immense volume of water magnificently, and it is now believed that all danger will have passed by Wednesday, at the latest. Many people have abandoned their homes in the lowlands.

Third Attempt Ended Life.

Kansas City, Mo., April 10.—L. W. Hoch, a traveling man aged 40 years, whose residence is in Worcester, Mass., has committed suicide at a local hotel. His body was found by a hotel attache. He left a note stating that this was his third attempt at suicide, his two previous attempts being made in El Paso last week. Hoch is said to be well known in El Paso. He was worried over business troubles.
